

Hussein Mohamed

Flutter Developer | Mobile Software Engineer

hussein.mohamed.software@gmail.com | +20 1034442174 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | Cairo, Egypt

PROFESSIONAL SUMMARY

Flutter Developer and Mobile Software Engineer with 3+ years of experience building and shipping production-grade cross-platform apps for iOS and Android in fintech and sports-tech domains. Specialized in Clean Architecture, BLoC/Riverpod, unit testing, and end-to-end CI/CD release management on the App Store and Google Play. Experienced in Agile/Scrum environments with a proven track record of performance optimization, scalable feature delivery, and mentoring junior developers.

WORK EXPERIENCE

Flutter Developer — Tuwaiq Pay

09/2025 – 09/2026

Remote

- Built and maintained a production fintech app for iOS and Android used by real merchants for invoicing, payments, and transaction management.
- Delivered scalable cross-platform features using Flutter and Riverpod following Clean Architecture, including sub-account support with differentiated UI and API behavior.
- Led key modules: authentication, biometric login, NearPay SDK integration with localized NFC error handling, and multilingual support (Arabic/English).
- Managed App Store and Google Play CI/CD releases using GitHub Actions; resolved Android 16KB memory page size issue and handled App Store rejection.
- Collaborated within an Agile/Scrum team with backend and UI/UX to deliver a secure, high-performance mobile experience.

Flutter Developer — Octopus Software Solutions

06/2025 – 09/2025

Remote

- Contributed to SportyMate, a two-sided sports booking marketplace for Android and iOS connecting players with trainers and clubs.
- Implemented booking requests, Paymob payment checkout, and secure authentication integrated with Retrofit/Dio and Firebase.
- Built responsive, dynamic UIs with stable performance across Android and iOS.
- Set up CI/CD pipeline using GitHub Actions and Fastlane for automated testing and deployment.

Flutter Developer — Valuerythm

11/2023 – 06/2025

Cairo, Egypt

- Built and maintained cross-platform iOS & Android apps with strong focus on UI polish.
- Integrated REST APIs and Firebase services for secure, efficient data flow.
- Improved app responsiveness through profiling and state-management refactors using BLoC & MVVM.
- Wrote clean, testable code with unit/widget tests; conducted code reviews in Agile teams.

Flutter Instructor & Team Lead — GDSC – Google Developer Student Clubs

10/2022 – 05/2023

Cairo, Egypt

- Led weekly Flutter and Dart training sessions for 50+ students covering UI design, state management, and software architecture patterns.
- Supervised Flutter sub-team and guided members through real-world project development using Agile practices.
- Promoted open-source contributions and built a collaborative Flutter learning community.

SKILLS

- Languages & Platforms: Dart, Flutter, iOS, Android, Cross-platform Development
- Architecture: Clean Architecture, BLoC, MVVM, Riverpod, Cubit
- State Management: BLoC, Hydrated BLoC, Riverpod, Cubit
- Networking: Dio, REST APIs, Freezed, JSON Serialization
- Storage: Firebase, SharedPreferences, Secure Storage
- Testing: Unit Testing, Widget Testing, Integration Testing
- DevOps & CI/CD: GitHub Actions, Fastlane, Firebase App Distribution, App Flavors
- Tools: Git, Android Studio, VS Code, Xcode
- Payments: NearPay SDK, Stripe, PayPal
- Methodologies: Agile, Scrum, Code Review
- Soft Skills: Teamwork, Communication, Time Management, Technical Mentorship

PROJECTS

Tuwaiq Pay

09/2025 – 09/2026

Live Fintech App – [App Store](#) & [Google Play](#)

Production fintech application for iOS and Android used by real merchants for invoicing, payment processing, and transaction management. Features biometric login, NearPay SDK, sub-account management, and full Arabic/English localization. Built with Clean Architecture and Riverpod.

Tech: Flutter, Riverpod, Freezed, NearPay SDK, REST APIs, Biometric Auth, Localization, CI/CD

5X Fitness

08/2026 – 08/2026

Personal Project – Fitness Tracking App

Bilingual fitness tracker built around a structured 5-day gym rhythm, daily plank progression, workout logging, consistency streaks, weekly analytics, monthly InBody tracking, body measurements, and progress-based recommendations.

Tech: Flutter, Riverpod, Clean Architecture, Local Persistence, Analytics, Localization

Splitly

08/2026 – 08/2026

Personal Project – Expense Splitter App

Guest-first group expense splitter for trips, roommates, events, and teams. Supports groups, members, equal/custom expense splitting, balance summaries, settlement suggestions, sharing, local persistence, and a roadmap for authentication and cloud sync.

Tech: Flutter, Riverpod, Clean Architecture, Offline-First Storage, Localization

Refqa

07/2026 – 07/2026

Personal Project – Islamic Companion App

Ongoing personal Islamic companion app offering Quran recitation practice, prayer times, Qibla direction, and daily Azkar, with a native Android pipeline for on-device Arabic speech recognition.

Tech: Flutter, Kotlin (native audio pipeline), On-Device Speech Recognition, Firebase

SportyMate

06/2025 – 09/2025

Live Sports Management App

Two-sided sports booking marketplace for Android and iOS connecting players with trainers and clubs. Features trainer-published schedules, Paymob payment checkout, and QR-based attendance check-in.

Tech: Flutter, BLoC, HydratedBloc, Retrofit/Dio, Firebase, Paymob, GitHub Actions, Fastlane

EDUCATION

Bachelor of Management Information Systems — Elshorouk Academy

09/2019 – 07/2023

Cairo, Egypt

Grade: Very Good

ACHIEVEMENTS

- Mentored and trained 50+ junior developers and students through GDSC.

CERTIFICATIONS

- The Complete Flutter & Dart Development – Udemy
- Flutter BLoC & MVVM Pattern – Udemy
- Flutter Clean Architecture | Flutter 3 – Udemy
- Flutter Development Diploma – Route
- Flutter Payment Integration (Stripe, PayPal) – Udemy
- Google Developer Student Clubs (GDSC) – Team Lead Certificate

LANGUAGES

- Arabic: Native
- English: Professional Working Proficiency
